

NEW RAPID-PAYOUT FLOOD INSURANCE!

CUSTOM-BUILT TO KEEP YOU IN CONTROL

Introducing...

FloodFlash

Whether you can't get cover, have a large excess or just want a top-up to your existing policy - there are plenty of reasons to choose FloodFlash for your business or commercial property.

Fast

We pay out the full value of the settlement within days of confirming a flood. So you can recover quicker.

Easy

FloodFlash claims don't come with long paperwork or lots of haggling. We just confirm the flood and pay out the agreed amount.

Flexible

Control your trigger depths and payout values or even make your premium cheaper by raising stock or installing flood defences.

Three simple steps to controlling your recovery

Rapid-payout flood insurance is changing the way that businesses recover from flooding. Here's how it works:

01

Select:

choose the trigger depths and their payout values for your cover

02

Install:

our engineers pay a visit and install a mobile-connected sensor

03

Settle:

When a flood reaches the agreed depth, we organise payout

Choose up to five trigger points to cover different levels of damage or business interruption

If your property is higher than ground level, or you install flood protection, you can benefit from a cheaper premium

We quote no matter your previous flooding or whether you're near a water source

Use the payout on whatever you like, no restrictions

We cover any commercial or landlord property, no matter the size

Our connected sensor tells us when a flood occurs so we can organise the payout within days
